## Executive summary

This document is the contractual deliverable “D6.9 - Events report” of the TEAMIT+ project (Full title: Teampreneur multicultural impact innovation cooperatives). It has been prepared under Work Package 6 - Communication, Dissemination, Exploitation and Sustainability which is led by CluBE, and supported by all TEAMIT+ partners. It is intended to be a “living document” which will be updated twice: halfway through the project (Month 18) and at the end (Month 36). The aim of the report is to present all events taking place in the framework of the project, either at local, regional and national level, or at EU level.

The report will be structured as follows:

- ⊕ The first section presents the events organized by the project.
- ⊕ The second section presents the events that have been attended by project partners in order to disseminate the project objectives, activities and results.

## Events organized by the project

As part of the TEAMIT+ communication and dissemination strategy, partners have been tasked with organizing a series of events to engage relevant stakeholders, including educational institutions, companies, entrepreneurs, and public administrations. A total of 20 presentation days are planned, alongside a final event at the conclusion of the project. This deliverable reports on the events that have taken place so far.

## Presentation days

Since the beginning of the project, 14 presentation days have been done. Pictures can be found in the annexes.

## Conference on Sustainable Energy Education in Valencia – 03-05/07/2024

**CluBE** attended the **SEED** Conference held in the city of Valencia in July 2024. This conference brought together experts, educators, and researchers from around the world to discuss and explore the future of sustainable energy education. The workshop fostered interactive discussions about two distinct educational approaches. Participants engaged in dynamic exchanges, sharing their experiences and perspectives on what kind of problems their regions are facing and how best sustainability and entrepreneurship can be combined to solve them. These discussions provided valuable insights into the challenges and opportunities within this field. Presenting TEAMIT+ at this conference was a significant step in communicating the project to the wider research community. The workshop offered an excellent platform to highlight the potential of TEAMIT+ and its role in shaping a more sustainable and innovative educational landscape. The feedback and input received were invaluable, helping us refine our approach and broaden our impact.
