Executive summary

This document is the contractual deliverable “D6.10 Events report (Update M36)” of the TEAMIT+ project (Full title: Teampreneur multicultural impact innovation cooperatives). It has been prepared under Work Package 6 - Communication, Dissemination, Exploitation and Sustainability which is led by CluBE, and supported by all TEAMIT+ partners. It is a “living document” updated twice: halfway through the project (Month 18) and at the end (Month 36). The aim of the report is to present all events taking place in the framework of the project, either at local, regional and national level, or at EU level.

The report is structured as follows:

- ⊕ The first section presents the presentation days and the final event organized by the project.
- ⊕ The second section presents the international major events that have been attended by project partners to disseminate the project objectives, activities and results.

Sessions or events organized by the project (M36)

TEAMIT+ partners organize events as part of the communication and dissemination strategy. The project aimed at organizing 20 presentation days to engage with relevant stakeholders (educational institutions, companies & entrepreneurs, and administrations). In addition, the final event was organized to celebrate and disseminate the project results in May 2026.

Presentation days

In addition to the 14 presentation days reported in M18, TEAMIT+ partners organized 41 presentation days during the last 18 months, thus a total of 55 presentation days as part of the communication and dissemination strategy, overachieving significantly the target of 20 presentation days. These meetings aim at engaging with relevant stakeholders (educational institutions both Higher Education (HE) and Vocational Education Training (VET), companies, NGOs and local authorities).

Final event (May 2026)

The TEAMIT+ Final Event, held on 11 May at ESTIA (Bidart, France), marked the culmination of the Erasmus+ TEAMIT+ project. The event brought together a diverse group of stakeholders to reflect on the project's outcomes and explore future directions in the field of student European green entrepreneurship and innovation.

The event objectives were to:

- ⊕ Present and discuss the key achievements of the TEAMIT+ project
- ⊕ Facilitate exchange of knowledge and experiences among stakeholders
- ⊕ Strengthen connections between institutions, including higher education institutions, innovation actors, and entrepreneurship support organisations
- ⊕ Identify future collaboration opportunities and next steps

The Final Event was designed not only as a closing milestone, but also as a launching point for continued cooperation and network development beyond the project's lifetime. It gathered almost 100 people in Bidart, France and the video was streamed live to students at JAMK in Finland. The event video was viewed around 300 times since then.

Two high-note speakers, Helena Gorroño from TZBZ S.Coop and Florian Sora (European Business Network) traveled to Bidart to present their institutions' work and motivated students to pursue a green entrepreneurship pathway.

The TEAMIT+ Module 3 eleven teams, who were created at the Athens bootcamp, presented their sustainable solutions developed between March and May. A jury composed of diverse members such as incubators, VET centres and local authorities rated the projects based on the project's market and financial strength, short-term actionability, scalability and impact, as well as the team's performance and motivation to pursue the project. The jury designated the three winner teams that will receive as the key award a coaching support from SENSE IMS company for an amount of 2,000€, this support includes access to its online Market Analysis tool.

In parallel to the teams' pitches and the awards ceremony, three key sessions discussions were organized:

- ⊕ One roundtable with TEAMIT+ partners moderated by Saioa Campo Alba (KONFEKOOOP). 5 representatives from institutions who have signed partnership agreements with TEAMIT+ shared their experiences, motivations, and perspectives around the TEAMIT+ programme and youth entrepreneurship in Europe.
- ⊕ One session with inspirational talks regarding European entrepreneurial experiences moderated by Mar Rubio (UPNA). During this session, 6 panelists discussed what a European start up journey involves, and opportunities as student entrepreneur mobility programmes.
- ⊕ One roundtable on European entrepreneurship pathway, chaired by Jérémie Faham (ESTIA). This session focused on shared challenges and opportunities in developing entrepreneurial ecosystems across Europe, particularly those supporting youth and emerging entrepreneurs.

Les trois lauréats du programme européen TeamIt sélectionnés à l'Estia

Le projet européen TeamIt s'est clôturé il y a quelques jours dans l'amphithéâtre de l'Estia. Ce projet au long cours, mis sur pied il y a trois ans, a réuni durant trente-deux mois à l'école d'ingénieurs de Bidart 80 étudiants venus de France, de Finlande, d'Espagne et de Grèce autour de la recherche de solutions innovantes face aux défis climatiques et sociaux.

À l'origine, en 2019, l'Eurorégion cherchait à renforcer la cohésion de sa jeunesse en rassemblant des étudiants de l'université de Navarre, de celle de Mondragon et de l'Estia, autour de projets à finalité environnementale. Un appel à projet européen a alors été lancé avec Erasmus + et l'Alliance pour l'innovation, visant à renforcer les capacités d'innovation de l'Europe en facilitant la coopération.

Transition environnementale

De cette initiative est né un programme inédit, mis en place pour offrir aux étudiants une occasion de s'engager pour la transition environnementale en menant de A à Z des projets à impact positif au sein d'équipes multiculturelles. Tout au long du processus, les étudiants ont été sensibilisés à l'entrepreneuriat solidaire. Ils ont travaillé sur les mécanismes du

changement climatique et des inégalités et réfléchi aux problématiques sociales induites.

À l'arrivée, 20 projets entrepreneuriaux ont pris forme. 11 d'entre eux ont été présentés en public, devant près de 100 personnes. Les trois projets arrivés en tête ont pour nom Bizi Waste, Drasi et Nero. Le premier s'intéresse à la gestion des déchets dans les domaines viticoles, le deuxième à la distribution d'inclusifs alimentaires des bou-

langeries et restaurants, le troisième à la régulation de la consommation d'eau dans les hôtels.

Les lauréats qui souhaitent poursuivre le développement de leur projet et tenter de lancer leur commercialisation pourront bénéficier d'un accès à un outil de modèles économiques en ligne et d'un coaching hebdomadaire d'une valeur estimée de 2 000 euros.

El proyecto europeo TEAMIT+ propone una **transformación profunda del sistema pedagógico actual** para fomentar la **creación de comunidades de trabajo** frente al aislamiento del emprendedor tradicional. Esta iniciativa, que emplea la metodología **"aprender creando"**, reúne a **jóvenes de diversos perfiles** para resolver retos reales de **sostenibilidad y acción social** planteados por empresas cooperativas. El programa no solo busca la **formación técnica**, sino que pretende **generar un impacto positivo** en el entorno mediante la **resolución de problemas complejos en equipos multiculturales**.

Saioa Campo, del departamento jurídico de KONFEKOOP (Confederación de Cooperativas de Euskadi), ha destacado en ONDA VASCA que el valor de esta iniciativa reside en la suma de capacidades, afirmando que **"a través del emprendimiento colectivo podemos lograr muchas más cosas que de forma individual"**. Ha explicado también el éxito de los retos de innovación, subrayando que **"lo más gratificante es ver cómo surge una especie de proyecto de vida"** en los participantes. Además, ha puesto en valor el papel de las cooperativas al señalar que **"sus principios de solidaridad y democracia encajan muy bien con la preocupación social del proyecto"**.

2mo •

On 11 May 2026, the European project [project TEAMIT+](#) will conclude in France with a dynamic event dedicated to youth entrepreneurship, innovation, and sustainability.

TEAMIT+ is an Erasmus+ project based on teampreneurship, collaboration, and learning by doing. Throughout the programme, participants aged 18–30 from Spain, France, Finland, and Greece took part in workshops, hackathons, and a 3-month training programme, developing their ideas and turning them into entrepreneurial projects.

As a project partner, CluBE actively contributed to the implementation of TEAMIT+ activities in Kozani, successfully organising the 24h of Innovation and playing an important role in the participants' experience.

During the Final Event, the teams will present their projects, while the overall results of TEAMIT+ will also be showcased through a dynamic programme including speeches, discussions, and networking activities.

CluBE participated in the 2nd Bootcamp of TEAMIT+ in Anglet, France, during a dynamic week full of workshops and intensive teamwork. The teams presented 10 innovative green entrepreneurship projects during the Final Event organized by ESTIA.

🏆 Team BiziWaste unanimously won 1st place, under the guidance of coaches **Dimitris Silikas** and **Stefanos Dodouras**. The team developed a business idea focused on the reuse of wine bottling filters in La Rioja of Spain.

🥈 Team "Drasi" received 2nd place, with **Sofia Pouri** as coach. Drasi's project focused on reducing food waste and supporting vulnerable social groups in the city of Athens, Greece.

The event was followed by the final consortium meeting of the project partners, where the results and impact of TEAMIT+ throughout its 3 years of implementation were discussed, along with potential next steps for the future.

International Association For The Economics Of Participation (IAFEP) (July 2026)

On 9 July 2026, TEAMIT+ participated in the International Association for the Economics of Participation IAFEP Conference, hosted by Mondragon Unibertsitatea in Oñati, Spain. During the conference, TEAMIT+ contributed with two complementary presentations that highlighted how educational innovation and supportive policy frameworks can work together to strengthen green entrepreneurship.

The first presentation, delivered by Lander Jiménez Ocio (MUE), introduced the TEAMIT+ open teampreneurship model for climate action. The model empowers multicultural teams to develop cooperative or green enterprises, while promoting democratic governance, active participation and shared value creation.

The second presentation, by Mar Rubio Varas (UPNA), focused on the legal and regulatory environment for cooperatives across Europe. Drawing on the project's D2.2 research on legislative barriers, it explored the challenges young entrepreneurs face, including differences in governance requirements, taxation, capital requirements and cross-border cooperation. The research has also contributed to the publication of the book *Cooperativas*

y *Ordenamiento Complejo* (Civitas, 2026), offering a practical overview of cooperative legislation across Spain and its European dimension.

About the TEAMIT+ project

TEAMIT+ aims to develop an innovative educational program applying a pedagogical methodology based on the “learning by creating” approach. The specific pedagogical methodology will be applied to vocational training students, to higher education students, as well as to young immigrants, refugees and the unemployed from different academic subjects. The aim is to enable them to become future teampreneurs who will influence society by understanding the importance of the transition to a greener economy, based on green, digital and climate resilience skills.
