

DRASI

— Fighting Food Waste, Feeding Communities —

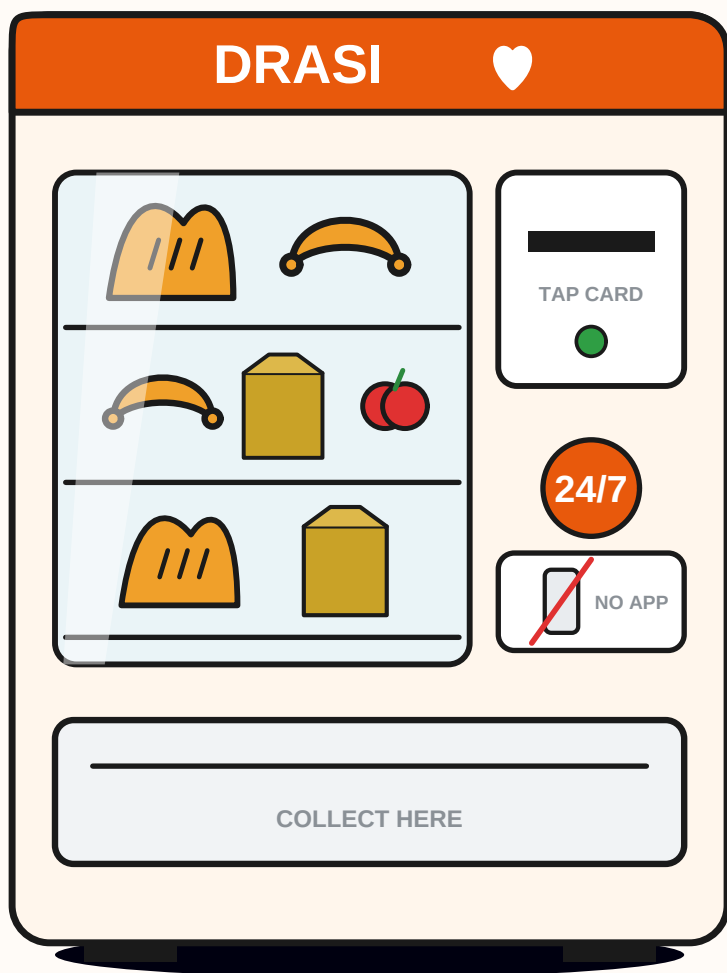

THE CHALLENGE

Each day Athens' bakeries and restaurants discard edible food while many people face food insecurity — and existing tools demand a smartphone, internet or payment.

OUR SOLUTION

DRASI is a vending-machine-style collection point placed outside partner bakeries. Surplus food is stored safely and accessed 24/7 with a card distributed through local charities.

HOW IT WORKS

The DRASI collection point, outside a partner bakery
