

Fix & Sip

— Repair, Connect, Enjoy —

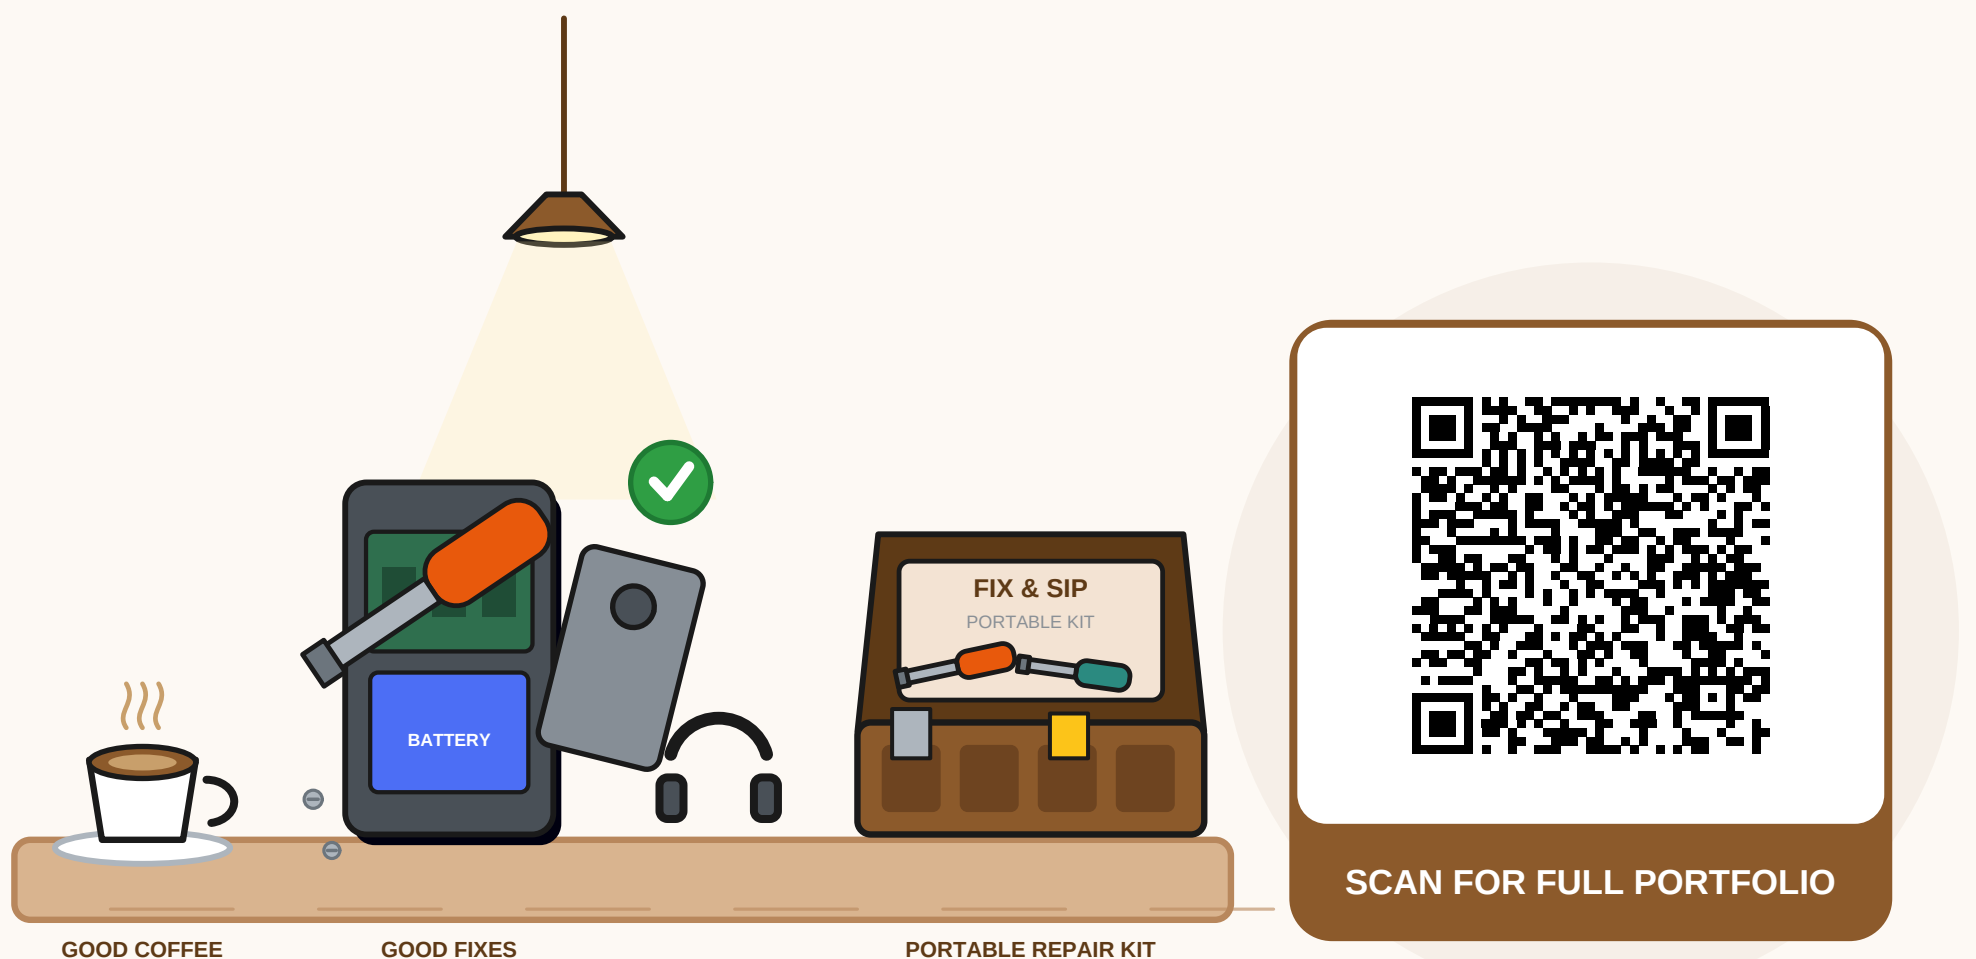

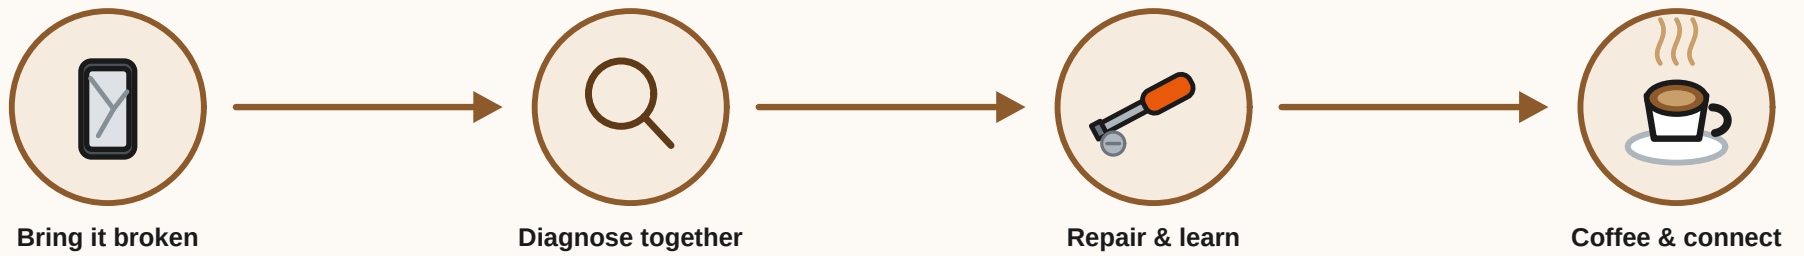

THE CHALLENGE

Millions of devices are thrown away yearly though many are fixable. Repair skills are fading and professional repairs cost too much, so people replace instead.

OUR SOLUTION

Fix & Sip is a community repair event hosted in cafés. People bring broken devices and volunteers help diagnose and fix them — repair as a warm, social experience.

HOW IT WORKS

Point your phone camera at the code

Fix it, don't ditch it — free repair events in your local café
